Massillon, Ohio 44646-8397**

Name: _____ **Date:** _____ **Phone:** _____

Address of property with problem: _____

Explain the complaint: _____

Stark County Soil & Water Conservation District

Erosion/Sediment Control Complaint/Comment Procedure.

Complaints/comments received from excessive mud and debris causing damage to a resident's property is an unfortunate yet sometimes unavoidable result when an earthmoving project begins. This procedure is meant to ensure the complaint is addressed. Contact the SWCD office immediately 330-830-7700, 103 to inform them of the problem. Required information:

- What the complaint is?
 - Name, address and phone number.
 - Location of complaint (township, city, village, subdivision).
-
- An SWCD inspector will be sent to the site to record problems, through pictures and an inspection report.
 - If after the inspection, it is determined that the problem was due to the construction project, and the Water Quality Regulations have not been followed, the developer will be contacted to repair and/or clean the damage.
 - All complaints will be addressed by either a site inspection, letter or phone call and kept on file for no less than 1 year of the date received.
