## JOB POSTING

### Storm Water Inspector 1

The Stark Soil & Water Conservation District seeks a qualified individual for a full time (40 hours a week) position focusing on compliance with the County Stormwater Program and Sediment, Erosion and Stormwater Regulations Regarding the MS4 (Municipal Separate Storm Sewer System) requirements with the Ohio EPA NPDES (National Pollutant Discharge Elimination System) Permit. Key duties include inspection of construction sites to ensure compliance with storm water quality regulations; inspection of outfalls and post-construction best management practices; and investigation of illicit discharge complaints. A Successful candidate will also work on storm water education, community events, and drainage issues as necessary.

Required qualifications are an associate's degree in conservation, natural resources, environmental science, or related field; six months of related work experience; or equivalent combination of education, experiences, and knowledge. We provide opportunities for professional development and offer a gratifying workplace.

Interested candidates need to submit a cover letter, resume, and three references to [dmkunz@starkcountyohio.gov](mailto:dmkunz@starkcountyohio.gov) or mail to Daniel M. Kunz, Stark Soil & Water Conservation District, 2650 Richville Dr. SE, Suite 100, Massillon, Ohio 44646. The position is open until it is filled.
